

CoirLoc™ An Innovative Environmental Product

CoirLoc is a lightweight, easy-to-use, **all-natural** absorbent granule product made from coconut husks. CoirLoc is ideal for industrial spill kits, schools, hospitals, transportation, and EH&S applications.

CoirLoc is emerging as the most versatile absorbent on the market. It has been used or tested on a variety of liquid substances. EcoPro is currently doing extensive testing on 13 of the most common liquids in the industry and expanding those tests to include more substances.

Advantages of CoirLoc

- **100% natural** (organic), renewable, reusable, sustainable material
- **No silica dust**
- **Ergonomics: lightweight, safe, and easy to move/use.** 5 lbs. of CoirLoc replaces 80 lbs. of clay, 20 lbs. of CoirLoc replaces 320 lbs. of clay
- **Space saving:** throughout plants, schools, stores, and on or in equipment/vehicles
- **Versatile:** multiple of uses and applications (fuel, oil, acid, blood, vomit, resin, coolant, water, paint, polymer, etc.)
- **Reduce clean-up times by 75%** while suppressing vapors and odors
- **Waterless cleaner:** safely & quickly removes excess residue from floors, hands, equipment, tools, etc.
- **Less material needed for spills** reduces material costs; less waste by weight, which reduces waste costs; less weight needing transport reduces transportation costs
- **Separates oil** from water

Absorbent Usage and Price Comparison Estimate for Customer (CoiRLoc to Clay)

- **Companywide annual Oil Dri/clay usage:**
16,287 bags; (\$6.57 each, 40 lbs. each/50 bags per pallet), 325.74 pallets per year
- **Monthly per site bag usage:**
1,604 bags monthly, 32.08 pallets Oil Dri
- **Absorbent weight monthly per site:**
64,160 lbs.
- **Annual companywide absorbent weight:**
651,480 lbs.
- **Annual cost of Oil Dri:***
\$107,005.59
($\$6.57 \text{ per bag} \times 16,287 = \$107,005.59$)

* SDS, NSF, OMRI, University studies, product information, and pricing is available upon request.

Companywide Savings:

- **Number of bags reduced annually:**
14,252
- **Annual absorbent weight reduced:**
610,780 lbs.
- **Annual absorbent cost reduced:**
\$25,605.59
